EXPERIENCE

Summer 2026	PERETO AGENT (AI AGENTS FOR B2B SAAS CONTRACT RENEWALS) <i>Strategy and Operations – Summer Intern</i> Palo Alto, CA - Drove pivot from chatbots to autonomous agents that run SaaS contract renewals end to end, winning CEO and board approval by diagnosing 5 root causes of revenue leakage across 50 SaaS firms via interviews - Built the market case for expanded scope by prototyping the agent and running 18 client feedback calls that produced 3 MVP agreements and 1 anchor client releasing 300 account renewals for live testing - Repositioned the investor narrative around customer traction, competitive position and production readiness, then presented to VCs at incubator demo day, helping secure \$3.5M seed round
2024 - 2025	DELOITTE CONSULTING <i>Senior Consultant – Digital Transformation (Agentic AI)</i> Singapore - Grew new AI practice to \$8M by qualifying 15 opportunities within government and financial services clients, translating capabilities into business cases and owning discovery through delivery on the 4 that converted - Led end to end enterprise AI deployment for global insurer by coordinating 12 developers across 6 finance and HR processes, cutting client onboarding time by 36% and resolution time by 54% - Designed agentic underwriting workflows for global bank, improving risk assessment speed by 45% through human-in-the-loop review, policy guardrails, exception handling and KPI dashboards for compliance - Overhauled governance for Japanese bank's digital project portfolio by establishing the operating data models and designing executive dashboards that cut project delays by 23%
2022 - 2024	RESOURCE GLOBAL PROFESSIONALS <i>Senior Solutions Consultant – Digital Transformation & Process Engineering</i> Singapore - Ran solution consulting behind \$9.3M in annual IT automation revenue for legacy organisations, mapping client requirements to target architecture and defending pricing through C-suite negotiations - Architected lifecycle governance for 300K+ IT assets at local university, replacing untracked warranty and end-of-life data with ServiceNow workflows that cut annual licensing and maintenance spend by 30% - Cut audit timelines by 40% and saved \$1M in labour costs for national trade union by aligning product, design, sales and delivery stakeholders behind \$745K risk management platform
2020 - 2022	TAGTEAM TECHNOLOGIES (AI AND DATA ANNOTATION) <i>Operations and Solutions Lead – Computer Vision & Multimodal AI</i> Singapore - Scaled seed stage startup to \$3M in revenue by architecting the delivery model and standing up the AI consulting team, winning the first client within 3 months through solution design - Commercialised 7 AI solutions including crisis detection system for Singapore's Ministry of Defence, shaping value propositions and deal structures that lifted AI adoption by 13% among emergency operations teams - Defined international market entry strategy through customer segmentation, competitor analysis and partnership prioritisation, launching operations in Korea and Indonesia
2017 - 2019	VENCY TECH (Concurrent with studies) <i>Founder</i> Singapore Bootstrapped partner relationship management SaaS that gave enterprises workflows to close deals through channel partners, scaling to 10 customers and \$50K ARR before exiting at 6x revenue multiple
